

Kynar heat shrink tubing

Kynar is a material which provides an excellent grinder reliability and durability.

Kynar heat shrink tubing has a continuous working temperature of 175°C and can easily withstand a temperature of 350°C for shorter periods.

The standard colour of Kynar heat shrink tubing is transparent/beige. Other colours available on request.

Key properties Kynar heat shrink tubing

- Shrink Ratio 2:1
- Shrink temperature > 175 ° C
- Self-extinguishing/Cadmium-free transparent tubing
- Durable
- Working temperature -55°C to 175°C

Ratio 2:1

Type inch	Dim. mm	ID before shrink mm	ID after max. shrink mm	Wall thickness after max. shrink mm
3/64"	1.20	1.20	0.60	0.25
1/16"	1.60	1.60	0.80	0.25
3/32"	2.40	2.40	1.20	0.25
1/8"	3.20	3.20	1.60	0.25
3/16"	4.80	4.80	2.40	0.25
1/4"	6.40	6.40	3.20	0.30
3/8"	9.50	9.50	4.70	0.30
1/2"	12.70	12.70	6.40	0.30
3/4"	19.10	19.10	9.50	0.43
1"	25.40	25.40	12.70	0.48

The above mentioned dimensions and tolerances are our standard.
Other dimensions and/or tolerances available on request.
